

DISTRICT CONSULTING

At Partners, we recognize that as leaders of complex systems working hard to achieve educational equity, district staff need targeted support and learning around the particular challenges of their unique and high-leverage positions.

Unfortunately, research and our experience tell us that district leaders' learning is often not a priority and all too frequently they do not get the support they need. At Partners, we provide targeted and customized support to help district leaders ensure

that their actions and systems catalyze and sustain school transformation. We work with our clients to set specific goals and determine a scope of work that most effectively addresses identified areas of need.

WE OFFER

- **DISTRICT TRANSFORMATION REVIEWS** Collect data on the current state of district systems and practice in the areas of Leadership, Professional Learning and the Core Instructional Program. Following an intensive data collection process that includes surveys, interviews and observations of key events, our team can provide an in depth analysis of district strengths and opportunities for growth.
- **STRATEGIC PLANNING AND CYCLE REVIEWS** Create a theory of action and plan for achieving your district's vision, using adult practice and student achievement data to prioritize and align initiatives across the district. Strengthen systems and processes for monitoring and reflecting on progress towards goals and district priorities. Identify and implement adjustments needed to more effectively support schools.
- **INSTRUCTIONAL PROGRAM** Ensure teachers have access to quality, Common Core aligned resources, unit plans and assessments. Develop standards-based curriculum maps that outline a logical sequence for mastery of critical skills, content and vocabulary for each grade level, content area and course.
- **PROFESSIONAL LEARNING** Design a learning system that enables teachers and leaders to receive the training and support they need to achieve their goals. Learn to design and facilitate learning communities that leverage continuous improvement cycles to support participants in a rigorous and action-oriented collaboration.
